INTEREST IN MINING CIRCLES BECOMING LIVELIER EVERY DAY.

Everything Now Indicates the Recognition of Old Crittenden as the Richest Fluor Spar, Lead and Zinc District in the World and soon to More than Double All former Outputs.

Fluor Spar news is becoming more plentiful. The lecture we read out in these columns last week has had effect. Certain Fluor Spar operators now show a willingness to talk, and divide with other mortals, news which is peculiarly their own and interesting mainly to them and their stockholders.

Some of the most conservative men, who habitually work in the dark, and never say a word for publication, now deign to say "hello" to the Editor. In a few weeks time we hope to have something to say in these columns that will be of paramount interest to our readers and it will be furnished by these tight-lipped words too.

The thirteenth annual session of the American Mining Congress opened Monday of this week in Los Angeles, Cal. This annual congress during these thirteen years has accumulated such a large amount of mining literature and mining information that it has been found wise to establish a permanent headquarters. Such headquarters is at Denver Col. A letter addressed there to the Secretary by any of the mining operators of this district will bring much valuable information for the asking.

This mining congress is responsible almost entirely for the action of the United States establishing a Bureau of Mines. President Taft appointed a head for the Bureau the other day. This mining congress is also responsible almost entirely for the action of the legislatures of some of the states in passing laws looking to the safeguarding of mines and mine workers.

Very few people realize that 65 per cent of all the traffic handled by the railroads of this country originates in its mines. There are two million miners in the United States and the value of their production is one thousand five hundred million dollars annually. A part of that is fluor spar.

James Persons of this place reports that he has an option on some property in Carrsville Ky., and that on the bank of the Ohio river there has been opened up a vein of zinc. This vein shows up splendidly within three feet of the surface and the mineral is very coarse grained and would be very easily separated. There is no fluor spar in it which eliminates one of the hard problems of zinc mining in this district. We understand that Mr. Persons is now away interesting foreign capital in this zinc proposition.

Mr. White, the new Gen. Mgr. of the Commodore Mining Company, has been running drifts at the lower level and is now ready to stop. General Master of Transportation, Jno. W. Wilson was requested to put on six extra teams. They are shipping two hundred tons this week.

Messrs. James Persons, Geo.

Roberts and George Gray obtained a lease on the property of Mr. Ben Belt on his farm about two miles from the Corn Mines. Mr. Persons superintended some prospect work and came to Marion in a few days and reported to his partners that he had uncovered a sixteen foot vein of gravel and lump Fluor Spar. Mr. Persons added that it was fine too. George Gray said never a word but promptly filled his pipe again and pulled at it very vigorously. George Roberts emitted a harsh gritty laugh and said "Jim what are you giving us?" Jim says "By ginger you can believe it or not just as you please, it is like I tell you." Of course George Roberts went the next day to see it. "It is seventeen feet wide" said George. George Gray and the others too are being congratulated by their many friends over their find. Development work on this lease will be started at the earliest possible moment and pushed right on with vigor. This mine ought to pay from the jump.

Mr. Calvin Clark who is running one of the Fair View Fluor Spar and Lead Company's mines was here last week looking for mine workers.

The Keystone Mines have commenced to sink their shaft to the 250 foot level.

Mr. C. E. Ratcliffe, manager of the Franklin Mining Company has only a few more feet to sink his shaft when he will crosscut to the vein.

Captain T. H. B. Haase, manager of the Blue Grass Fluor Spar Company is sinking his new shaft deeper. He has three shafts in operation and is taking out fluor spar from each. This is the mine that the late Governor Johnston of Minnesota was interested in. A great many St. Paul people own stock in this mine and have hung on in spite of the depression in spar of two years ago. Now that the price has more than doubled these people will congratulate themselves and push the output of this mine to the limit.

Mr. Arch Oliver Manager of the Kentucky and Indiana Mining Company needs water and needs it bad. With plenty of water he could wash up the large pile of spar he has out and ship it at good prices. He has been puzzling his brain how he can pump water from the property of the American Mining Company's shaft and pump it on over to his own property. Oliver will solve the problem. He is a good mining man.

Mr. William Lowery, Superintendent of the Pope Mining mines, is what Colonel District of Columbia Roberts would call versatile. He owns and operates a Hennyery, is President, General Manager and Secretary of a Glove factory, is owner and

foreman of a large farm, does on and raises large clouds of bees, is an expert stock breeder and as stated at the first is General Superintendent and Manager of mines of the Pope Mining Company of Louisville. Mr. Lowery states that they are all doing well.

Mr. Bibby, of the Birmingham Fluor Spar and Lead Company operating the Wheatercroft lease, is now busily engaged in washing their big dump of fluor spar and shipping the spar at Mexico Kentucky.

Mr. Milton Yandell Superintendent of the Yandell mine has started a new shaft at that place.

Rosi-Clair and Fair View, Illinois are just across the Ohio river from Carrsville Kentucky. The mines at Rosi-Clair are owned by John R. McLean proprietor of the Cincinnati Enquirer and the mines at Fair View by Mr. Mulholland of New York City. These mines employ about 350 men daily in the Fluor Spar industry. They are on quite a boom just at present due to the tariff and the general prosperity of the country. The Fair View mines have a rail road to the river and there put the cars on a track barge which goes to the incline at Golconda, Ill. The Rosi-Clair mines ship by barge to Shawneetown and Joppa, Illinois.

Speaking of the Illinois side of the river recalls to our mind the fact that the difference on freight to northern and eastern points, especially between this side of the river and the other side was for years \$1.00 per ton. Added to all the other woes of the Fluor Spar producer those on this side of the Ohio river were obliged to have a mill stone of \$1.00 per ton around their necks in the way of extra freight charges. Rosi-Clair and Fair View could cut our prices \$1.00 per ton and still make the same profit. This state of affairs remained for years and not until recently has any relief been afforded. The difference in rate is now only twenty cents. Since Congress has enlarged the powers of the Inter-State Commerce Commission and that Commission has commenced to get busy there has been an awakening of dry bones in rail road circles. Mr. C. S. Nunn President of the Kentucky Fluor Spar Company deserves more of the honor, than any other one man, for the readjustment of rail road rates and an equalizing of the tariffs in this Illinois-Kentucky district. Mr. Nunn has been on the job early and late for years. In time this small difference of twenty cents per ton will be wiped out.

Mr. W. Murray Sanders as announced in our last issue went to Chicago and from there drifted over to New York City. Mr. Sanders has interests in Utah and interests in Kentucky but we verily believe the interests that are more near his heart than any other are in New York. Now anybody that wants to make a guess on this is at liberty to do so. We will not guarantee that he will furnish any information on the subject. Dropping this subject and reverting to mining we will state that our information is that the

LaRue Mine owned by Mr. Sanders and some New York parties and operated by Mr. Saunders is showing some of the finest zinc ever shown in this district. The shaft has been sunk 160 feet deep. The mine is well equipped with two new boilers, air compressor and everything that goes to make a first class mine. They have just enough water and not too much. This is a little remarkable as there is a creek close.

The Evangelist Mineral man Mr. Geo. Cramer has a few ideas in the process of incubation that will make the south end of this county sit up and take notice if he succeeds in carrying them out. He now proposes to organize a Company or to get his own Company to put in the necessary money to pump out the old Tabb shaft. This shaft was dug twenty years ago by Millionaire Brown of Pittsburgh and his nephew Will Ward. Fluor spar did not interest them. They were after silver and silver they got but at a great depth the water got so strong that the workmen in the shaft only escaped with their lives by the swiftest climbing. The mine filled to the top. Ward went to Pittsburgh and returned with powerful pumps but they never could make an impression on the water and had to abandon the mine. Ward always said he struck an underground ocean. Since that time the science of pumping water has improved to such an extent that we believe powerful Cameron pumps and huge boilers will empty the Tabb mines. The effort of Bro. Cramer will be watched with much interest in mineral circles.

Mr. Sam Gugenheim, one of the original stockholders in the Marion Mineral Company, one of the promoters of the Mary Belle and other properties; has spent a great deal of money lately in fixing up his handsome brick residence on Main Street. This is one of the finest residences in Marion and added thereto he has placed a new porch and balcony. He has also added some of the finest concrete walks in Marion. The work on these walks was of the best and then the contractor stated that in all his experience he never had better material. They are almost snow white. A new concrete fence surrounds the property. It has always been supposed that Mr. Gugenheim made some good money when he sold out of the Marion Mineral Company. Whether or not this has any connection with the activity noticed around Mr. Gugenheim's residence of late we are not advised.

We note with more than passing interest that Dr J. N. Clemens of Carrsville, has leased some of his property in Carrsville for \$10,000.00 to some eastern millionaires. The vein was found at the waters edge when the river was low. This zinc is exceedingly rich. Several years ago the Ohio Valley Mining Company composed of some Marion and several Owensboro people obtained a lease on the property of Mr. Alonzo Babb about one quarter of a mile from Carrsville. They spent quite a sum of money in trying to develop this property but in all their work they were not fortunate enough to strike the true vein. They were continually

Mr. Wm. Elliott of Henderson announces that the Books of the Stemming District will positively be closed at midnight Friday night. Tomorrow night. Every one should take heed to this last notice.

Mr. T. A. Harpending our worthy correspondent from New Salem was in Marion Saturday working in offshoots of the main vein and got out quite a considerable amount of mineral. The mineral was zinc and of high value. The location was in direct line with the showing on the waters edge which was in direct line with the works across the river. There is no question but what the veins of Rosi-Clair and Fair View cross the river at Carrsville.

LETTERS FROM POST MASTER GENERAL

That Will Prove of Interest And Value To Many Along Poorly Kept Routes

The Postmaster, Marion Ky., Sir: It is the desire of the Department that you earnestly request patrons of rural delivery routes out of your office to paint their boxes and the posts to which they are attached, a pure White color. This course, if pursued, will not only result in benefit to the patron in serving to protect his box and post from damage by the weather, but will give all boxes a uniform color and serve to fix their identity in all parts of the country as United States mail boxes, and will give them a much neater and sightlier appearance than they now possess. It is also desired that patrons be induced to imprint their names and box numbers on boxes in black block letters about two inches high. Posts to which boxes should be attached shall be set in an easily accessible position at the side of the road and boxes securely fastened to a projecting arm of wood; or to a bracket of band iron about three-sixteenths of an inch thick, or, if preferred, an automatic extension arm may be used.
Respectfully,
P. V. McGRAW,
Fourth Assistant P. M. Gen.

The Postmaster, Marion Ky., Sir: As a result of general and special letters sent out by the Department, and the co-operation of Postmasters and Carriers, there has been a great improvement in the highways on which rural routes are established. There are, however, many localities where road conditions are bad and improvements imperative. You are directed to inform yourself with reference to the condition of roads and bridges on the rural routes out of your office, and if you find that they require improvement you should present the matter in the strongest and most positive way to the patrons and road officials, informing them that improvements must be made as soon as practicable. If, after a reasonable time has elapsed, the improvements have not been made or started, you will report the fact to this office in order that action may be taken looking to the discontinuance of the service.

The Department is not immediately concerned in elaborate road improvements; but in the interest of the best service to the largest number of patrons it must insist upon roads being kept in good repair, the lack of which is usually due to improper drainage, and unsuitable grading and surface work, which can be easily and cheaply accomplished by timely work and the regular use of the split-log drag or other similar device.

Respectfully,
P. V. McGRAW,
Fourth Assistant P. M. General.

Mr. H. V. Stone acted in the capacity of Manager for McConnell & Nunn while they were at market last week and looked so much at home that the people were tempted to believe he had moved in again.

THE TOBACCO POOL

The tobacco producers are, through their agents, negotiating for the sale of the burley tobacco in the 1909 pool at 18 cents.

The stock would have been sold before this had there not been an effort to prevent the pooling of the crop of 1910.

Whether the crop of 1910 be good or bad, it should be in the pool.

If the crop be large it must be so handled as not to break down the market.

If it be short it should be pooled in order to get from the purchaser full price for a short crop.

If any large part of the crop of 1910 can be purchased in the field it makes the farmer compete with himself.

Every man whose crop of 1909 is in the pool should put his new crop there.

Every tobacco raiser who stayed out of the pool of 1909 benefited greatly by the work of others; reaped where his neighbors had sown; got the increase from the watering done by others.

He should do his part. He should be ashamed not to do his part.

If farmers will not help each other; if each will not do his share in this labor of marketing the crop, they have no right to complain of oppression.

Put up, men of Kentucky, or shut up.

WHY NOT GET RID OF CATARRH?

Here are some symptoms of catarrh:

If you have any of them, get rid of them while there is yet time:

Is your throat raw?
Do you sneeze often?
Is your breath bad?
Are your eyes watery?
Do you take cold easily?
Is your nose stopped up?
Do you have to spit often?
Do crusts form in your nose?
Are you losing your sense of smell?
Do you blow your nose a great deal?

Does your mouth taste bad mornings?

Do you have to clear your throat on rising, or have a discharge from the nose?

Does mucous drop in back of throat?

Have you ringing noises in the ears?

Hyomei (pronounce it High-o-me) is guaranteed to cure catarrh, coughs, colds, sore throat, bronchitis, asthma and croup, or money back. Just breathe it in. Complete outfit, including hard rubber inhaler, \$1.00. Druggists everywhere and Haynes & Taylor's sell HYOMEI. If you already own an inhaler, you can buy an extra bottle of HYOMEI for only 50 cents.

SENATOR DEBOE IN WRECK

Senator W. A. Deboe returned Friday from a business visit to Joplin, Mo., where he has mining interests, with many marks of a serious auto wreck in which he was in a few days ago. The Senator's mouth and face was considerably bruised, as was his body, and limbs. It seems while the party were on a tour of inspection around the mines that the earth gave way completely wrecking the machine and painfully bruising the occupants.

YOU TAKE NO RISK

Our Reputation and Money is Back of This Offer.

We pay for all the medicines used during the trial. If our remedy fails to completely relieve you of constipation. We take all the risk. You are not obligated to us in any way whatever, if you accept our offer. Could anything be more fair to you? Is there any reason why you should hesitate to put our claims to a practical test?

The most scientific, common-sense treatment is Rexall Orderlies, which are eaten like candy. They are very pronounced, gentle and pleasant in action, and particularly agreeable in every way. They do not cause diarrhoea, nausea, flatulence, griping or any inconvenience whatever. Rexall Orderlies are particularly good for children, aged and delicate persons.

We urge you to try Rexall Orderlies at our risk. Two sizes 10c. and 25c. Remember that you can get Rexall Remedies only at our store—The Rexall Store, Haynes & Taylor Drug Co.

Rev. J. O. Reavis a noted Divine, who has been in foreign fields for sometime will deliver an address "Africa" before the Womens' Missionary Union at the Southern Presbyterian church Wednesday evening, Oct. 5th at 7:30 o'clock. This address will prove a great treat to all who may hear it.

Don't forget that Eskew Bros., sell the best wheat fertilizer.

Free Sample Aids Old Men

The sudden change from years of activity of both body and mind to the quiet of later years causes the human system to undergo many changes, chief of which is in the digestive organs.

It becomes harder and harder to get the bowels to move promptly and regularly and in consequence many elderly men suffer not only from the basic trouble, constipation, but from indigestion, headache, belching, sour stomach, drowsiness after eating and similar annoyances. It is first of all necessary to keep the bowels open and then to tone the digestive muscles so as to get them to again do their work naturally. A violent cathartic or purgative is not only unnecessary but harmful, and something mild will do the work just as well.

After you have got through experimenting with salts and pills and waters of various kinds, and have become convinced that they do only temporary good at best, then try Dr. Caldwell's Syrup Pepsin, a mild, gentle, pleasant-tasting laxative tonic that is especially adapted to the requirements of old men, women and children, and yet is effective enough for anybody. Your druggist, who has handled it successfully for a quarter of a century, will sell you a bottle for fifty cents or one dollar, but if you want to make a test of it before spending any money send your name and address to Dr. Caldwell and he will gladly send you a sample bottle free of charge.

This remedy is rapidly displacing all other forms of medication for the cure of stomach, liver and bowel trouble, and families like Mr. O. F. Wisher's of Syracuse, N. Y., and Mrs. Carrie Culler's of 225 N. K. Dame street, South Bend, Ind., are now never without it in the house. They have tested it and know its grand value to every member of the family.

Dr. Caldwell personally will be pleased to give you any medical advice you may desire for yourself or family pertaining to the stomach, liver or bowels absolutely free of charge. Explain your case in a letter and he will reply to you in detail. For the free sample simply send your name and address on a postal card or otherwise. For either request the doctor's address is Dr. W. B. Caldwell, R. 500 Caldwell building, Monticello, Ill.

ECZEMA---A GERM DISEASE CAN NOW BE CURED

The Medical profession is all agreed that ECZEMA is a germ disease, but the thing that has baffled them is to find some remedy that will get to the germs and destroy them.

Zemo's clean, external treatment has solved this difficulty by drawing the germs to the surface of the skin and destroying the germ life that causes the diseases. The whole method of treatment and cure by Zemo is explained in an interesting book on the subject issued by the makers of ZEMO. It tells how to cure yourself at home of Eczema, Blackheads, Pimples, Dandruff, and all diseases of the skin and scalp. Call at Haynes & Taylor's Drug Store for Booklet and learn more about this clean, simple remedy that is now recognized the standard treatment for all diseases of the skin and scalp.

OUR WASHINGTON LETTER

Interesting News From the National Capital of the Gretest Country on Earth.

Washington Sept. (Special) The Seventh annual convention of the National Rivers and Harbors Congress, which will be held in Washington December 7, 8 and 9, will undoubtedly be the most important gathering the organization has ever held. It will find the executive and Congress in harmonious relation upon the great salient features of waterway improvements. The attendance is already assured of the most prominent men in public life, including the President of the United States and in all probability the Ex-President, Col. Theodore Roosevelt. It is now high time that all commercial and trade bodies interested in waterway improvement, should be making up their list of delegates to the National Rivers and Harbors Congress. The convention promises to have an enormous attendance, and accommodations for the visitors to the national capital, will be in great demand, especially as the date of the convention will be in the week of the reassembling of the Federal Congress. Subjects of vital importance to this great body of waterway enthusiasts will be discussed, the intention of the officers and directors of the Congress being to make the coming convention more truly representative of the whole people than ever before, if such a thing be possible.

The election of Asher G. Hinds, who was narrowly saved from the Democratic tidal wave in Maine, will be generally pleasing to old members of the House of both parties. Unquestionably a man of ability, in the extremely responsible position of clerk at the Speaker's table, Mr. Hinds while displaying a rare and accurate knowledge of parliamentary law and practice, showed he was a fair-spirited man and never led the speaker or the presiding officer for the time into error. Democrats generally spoke of him as a "very decent fellow." That he will be a useful representative both parties freely admit.

When Caleb Powers, nominated for Congress by the Republicans of the eleventh Kentucky district, takes his seat in the House, his district being overwhelmingly Republican, he will not be the only man in high public position in Washington who has been in jail for alleged crimes. Powers, as is well known, was for years in prison charged with complicity in the murder of Governor Goebel, and later pardoned by Governor Wilson. Justice Horace H. Lurton, of Tennessee, was imprisoned at Columbus, Ohio during the Civil war. He was one of Gen. John H. Morgan's raiders, with whom he was captured on their rash venture into Indiana and Ohio. General George W. Gordon, represented from the tenth Tennessee district and commander of the United Confederate veterans Association, spent some time in a northern prison after his capture, at the battle of Franklin, where, leading his brigade in charge on the Union breastworks, his horse carried him far in advance of his men and into the arms of a merciful enemy, who might have slain him, but spared him for a rest from his impetuosity in a secure northern prison. Congressman Richardson, of the eighth Alabama district, was in 1863, a Confederate prisoner in a Murfreesboro Tennessee jail, under sentence to hang as a spy. He

says he would doubtless have met such a fate, but for the fact that General Forrest surprised the Federals and rescued him. So there will be two members of the House who have had to suffer the agony of sentence to death, when Caleb Powers takes his seat.

Nominations for the next Congress are now proceeding rapidly. The Democrats appear to be earliest in the field, having nominated about three-fourths of 891, the present size of the House, while the Republicans have nominated about 55 per cent of their candidates. New York, with 37 members of the House, is as usual, last to make nominations.

CRITTENDEN COUNTY ROADS

Discussed This Week By Mr. Geo. Robinson, Who Travels Over Every Portion of The Co.

Editor of Record-Press:— With your permission I would like to say a few things in regard to the public roads of our county. I wrote something last year on the road question that was published in your paper. Then it was more of a complaining mood I wrote, as the roads were in a worse condition than I ever knew them. This time I have no criticism to make of any one. Like the old colored preacher, "I come before you with no animosity in my bosom." The roads have been greatly improved. More work has been done and in a more commonsense and business way than ever before. Not on account of the articles I wrote last year, as it was six months after I quit writing before a lick was hit on any of the roads. Mr. Henderson then County Attorney notified the overseers that the November Grand jury would likely inquire into the condition of the roads and urged them to have their roads ready for inspection. In less than 10 days the dirt began to fly and the overseers have continued on into this year doing their best to improve their roads and not to be out done by their neighbor overseers. I do not mean to say the three hundred overseers of this county are a set of men that have to be threatened or driven, as I believe they are all good law abiding citizens and the warning given by the County Attorney was only a reminder that caused them to see their duty and they were willing to do it. Judge Blackburn was full of the spirit of progress and used his influence to get the road grader introduced in the county. The grader has done great good, and will do more in the future as men and teams can now handle them better than they could at first. Our County Attorney, Mr. Moore, Judge Henderson and all our magistrates are deeply interested in the public good of the county. And all can rest assured they will do all they can to improve the condition of the roads. The road has only two enemies, wind and rain. The wind blows the fine dust away not more than an inch in 20 years. The rain dissolves the soil, and sometimes one big rain will carry off 6 in. or a foot of the road bed. We need not notice the wind, but look out for rain. Drainage is all that is needed. Widen the roads to 16 feet or 20 is better, allow no place of less width than 12 feet make a ditch on each side where banks are higher than road bed. Make ditches not less than 2 feet wide and not less than 6 inches deep. Make moderate dams across on hills, or slants at short intervals of 25-50 or 100 feet. Have good outlets from the dam into the

ditches. If this is all done the roads can be kept up with half the work and expense.

The county has for years wasted lots of money making culverts; buying lumber and building culverts is no little expense and the majority of culverts are a nuisance in the road. They soon fill up and a ditch cuts around so you have a culvert and a ditch both to pull over. A load of small rock or gravel would last for years and cost less. Let the overseer dig out a wide ditch where culvert is wanted and then line the sides and bottom with rock, it is safer better and more lasting than a culvert.

The Fiscal court ought to formulate a set of rules governing overseers, not let one work contrary to the best interest of the road and county. If the court would make a rule to not allow any overseer any road for plows and teams until he has finished up his road and has it properly drained. Let the magistrate of his district certify that it is so. There would be no trouble to enforce the rules. There is not sufficient stock water along roads. Make fords as well as bridges across all running creeks. We can't have straight roads we could have level roads. Instead of going straight up and straight down a hill lots of instances the hill is only a mound and can be avoided entirely by going to right or left only a few yards out of the way. If the hill can't be gone around, by going a zig zag course up the hill, the summit can be reached with no where a very steep grade to pull.

Crittenden county has as good, if not the best soil in the State for road building: a mixture of soil, clay and gravel. A little work goes along ways, lasts longer than any place I ever saw, where the first grader ran 2 years ago, and nothing has been done since, still shows, and road is fairly good yet. The time for wholesale work of ditch making and road leveling is when the ground is soft, later winter or early spring months. Overseers should have some compensation for extra time. If nothing else the county ought to release them from paying poll tax and furnish them the county paper gratis. The old custom of working the roads and letting the ditch go ought to be reversed, work the ditches and let the roads alone.

HENDERSON & MADISONVILLE FAIR

Judge C. C. Givons Doing All He Can To Make Both Fairs a Success in Every Way.

Judge C. C. Givons has announced that he will give Fall Agricultural Fairs at Henderson, October 11 to 15, and at Madisonville, October 18 to 22. Fifty Dollars at each fair is offered for tobacco and Thirty Dollars at each fair for corn exhibits and liberal premiums for all classes of farm products. The usual racing and ring show features will be given.

October is usually a very pretty season. The farmer's products are matured and they have leisure time to attend. Judge Givons always gives good fairs, and he ought to be able to give better fair in October than in July.

The Crittenden Record-Press

N. E. CALMES Editor and Publisher.

Entered as second-class matter February 6th
1879 at the postoffice at Marion, Kentucky, under
the Act of Congress of March 3, 1879.

One Dollar the Year in Advance.

It will be the policy of the Department hereafter where residents on any Rural Route continually neglect and fail to improve their roads, to discontinue such service. Rural mail delivery service is here to stay and it has grown to such proportions that it is now one of the strongest arms of the service. As a rule it works incalculable good. One man at a cost of \$2.32 per day serves on an average 500 people. If their time is only worth ten cents per day each, which is certainly a low estimate, the service shows an enormous saving to the people. Therefore all those living on the five routes emanating from the Marion, Ky. Postoffice should see to it, and see to it at once, that roads are put in good condition.

Good roads pay the largest dividends for the amount invested of any investment you can possibly think of or hear about. The toll exacted by bad roads from the farmer and haulers in general, in the shape of broken and worn out buggies, wagons, harness and extra feed for the extra pull on the stock carrying the loads is beyond belief. The opponents of good roads have not even a shred of an argument on which to base their opposition.

County President Rascoe asked us over phone to announce an important meeting of mem-

bers of the Union and especially the committee for 9:30 o'clock Saturday morning Oct. 1st. Don't get this confounded with the afternoon meeting as it is entirely new and different.

A Fine Lot Of Wheat

On a visit to the Marion Milling Company Monday, Mr. R. I. Nunn, the popular manager took a pleasure in showing us through their new grain house, now full of the finest grade of wheat in Kentucky, every bushel of which will weigh sixty one pounds and better. For so many thousand bushels of wheat this is a wonder and yet no wonder for Crittenden County as it is known she produces the best wheat on the market. This wheat goes into the celebrated "Elk" brand of flour. The Best In The World.

IMPORTANT NOTICE

The Executive Committee of the Farmers Union of Crittenden county: You are requested and urged to meet in Marion on Saturday the 1st day of Oct. 1910, at 1 p. m. Business of grave importance, that can not be postponed, will be laid before you. It is very important for every member of the committee to be present. J. W. RASCOE.

A Correction

In the memorandum article on the death of Miss Louise Hunt, by Mrs. Ruth Swaney, appearing in the issue of Sept. 15th., the authors name by mistake of the make up man placed at the foot of another article. We are very sorry that this occurred and to show our sincerity, will re-print the article if requested to do so. Such things will happen and no one hates it worse than the newspaper man.

The New Firm

Be sure to look for the attractive ad of McConnell and Nunn this week. They are just back from market with a brand new line of everything kept in a truly up-to-date Drygoods store and as both men are experienced in the business the selection has been made with an eye to pleasing their trade. Watch their show windows for shoes and dress goods and go inside their store for information about the best for the least money.

An Educational Window

Carnahan Bros. have out a page ad this week and are scattering two thousand bills of their wonderfully cheap sale from Oct. 3rd. to 8th. Do not fail to see their beautiful Educational show window, the taste of Mr. Frank Dodge. It will be the first thing of the kind in Marion. In it you will see cotton from the first or raw state going through all the processes until it reaches the bolt you buy from. These gentlemen advertise liberally and have everything they advertise.

In another column of this issue of the Record Press we call our readers attention to a communication from the Postoffice Department at Washington to the local Postoffice at this place setting forth in strong language the attitude of the Postmaster General on the subject of good roads.

SUNDAY SCHOOL CONVENTION

Our State Sunday School Convention will be held at Winchester Oct. 6-9, 1910. Let every Sunday School in the county be represented. Will be reduced rates. Apply to County President or Secretary for credentials.

DECIDE YOURSELF

The Opportunity is here. Backed by Marion testimony

Don't take our word for it. Don't depend on a stranger's statement.

Read Marion endorsement. Read the statements of Marion citizens.

And decide yourself. Here is one case of it:

A. H. Fritts, Depot St., Marion, Ky., says: "I know Doan's Kidney Pills to be an effective and reliable kidney remedy. For some time I had extreme lameness in my back and sharp cricks caught me when I arose from a stooped position. The kidney secretions were also irregular in passage and I felt miserable in every way. Doan's Kidney Pills, procured at Haynes & Taylor's Drug Store, were prompt in relieving me of all these annoyances. I have no hesitation in giving this remedy my highest endorsement."

For sale by all dealers. Price 50 cents Foster-Milburn Co., Buffalo, New York, sole agent for the United States.

Remember the name—Doan's—and take no other.

GLENDAL

We had a splendid sermon at this place Sunday afternoon delivered by Rev. W. D. Humphrey. He is one of our home boys and we wish him success in his field of labor, in the Illinois M. E. Conference.

Mr. Crune has moved from the Crittenden Springs to his new house near the Commodore mine.

Mrs. Hopkins and two children, and Miss Alice Curtin, of Louisville are the guests of Mr. and Mrs. J. B. White at the Terry spring.

Mr. Cecil Minner, of Morley, Mo., was the guest of his uncle R. D. Moore and family last week.

Miss Willie Thomas visited her cousin, Miss Ida Winders last week and attended the Hebron meeting.

Miss Sophia Farmer, of Salem was the guest of relatives and friends in this community last week.

Our school is progressing nicely with Prof. C. Thomas as teacher.

Mrs. Veyor Thomas is the guest of her brother, Lacy Thomas at Sturgis this week.

Sunday School each Sunday at this place, every body come that can.

Misses Cora and Rose Moore attended church at Hurricane last Sunday afternoon.

For Fine Breeding.

I will stand my black male Pole at my farm near Marion at \$1.00. Those desiring to improve their stock had better see me.

I. L. BRADBURN, Marion, Ky., Route 5.

Mr. and Mrs. R. L. Jones and little daughter, Mildred, of Morganfield, were guests last Friday of Mr. and Mrs. N. E. Calmes.

Mr. and Mrs. Crede Taylor returned from Louisville Saturday, where they had been attending the State fair.

Mr. and Mrs. Louis Clifton returned Saturday from Florida, where they had been making their summer home. Mr. Clifton is one of the most popular drummers on the road.

Jno. Eskew returned from Louisville Saturday, having seen the sights at the great State fair.

A NEAT COMBINED MACHINE

Last week Eskew Bros., who deal in every up-to-date piece of modern machinery known, sold a combined wheat thrasher and pea huller, with gasoline engine attached, to A. Dean, R. W. Barnes and W. G. Conditt. This nice serviceable wonder is manufactured by the International Harvester Company and is one of the finest things for a few farmers to own jointly we ever saw, and more is the pity that every neighborhood does not own one. If so there would be less damaged wheat and peas.

What To Do In Case Of Accident.

If skin is broken apply Dr. Bell's Anti-Pain at once and the wound will heal quickly and never get sore. Used internally and externally.

BEST FOR THE HANDS

S. L. Chapman, Massac, Ky., says: I used Dr. Bell's Antiseptic Salve on my hands, which were sore, and find it the best I ever tried. It cured them completely.

BEST IN THE WORLD

J. W. Hyatt merchants of Warren, N. C. writes: Please send enclosed order by mail. Sutherland's Eagle Eye Salve is the best remedy in the world. 25 cents.

A Beautiful Home at a Bargain.

We have a beautiful new home in the nice little town of Crayne for sale cheap. WOMEN'S HAIR

Can Easily be Made Fascinating and Luxuriant

On April 2, 1910, Mrs. R. M. Worden, 5 St. James Ave., Holyoke, Mass., wrote: "Parisian Sage is the best hair dressing I ever used. It gave my hair life and gloss which no other dressing ever did, besides stopping it from falling out. It is the only dressing for up-to-date women."

Parisian Sage is guaranteed by Haynes & Taylor to cure dandruff, stop falling and itching scalp in two weeks, or money back. It makes hair grow lustrous and luxuriant. It is a delightfully refreshing hair dressing, not sticky or greasy and will immediately banish all odors. Large bottle 50 cents at druggists everywhere, and at Haynes & Taylor. The girl with the Auburn hair is on every bottle.

FOR FALLING HAIR.

You Run No Risk When You Use This Remedy.

We promise you that, if your hair is falling out, and you have not let it go too far, you can repair the damage already done by using Rexall "93" Hair Tonic, with persistency and regularity, for a reasonable length of time. It is a scientific, cleansing, antiseptic, germicidal preparation, that destroys microbes, stimulates good circulation around the hair roots, promotes hair nourishment, removes dandruff and restores hair health. It is as pleasant to use as pure water, and it is delicately perfumed. It is a real toilet necessity.

We want you to try Rexall "93" Hair Tonic with our promise that it will cost you nothing unless you are perfectly satisfied with its use. It comes in two sizes, prices, 50 c. and \$1.00. Remember, you can obtain Rexall Remedies in this community only at our store—The Rexall Store—Haynes & Taylor.

J. B. Koon, of Fredonia neighborhood was in town Saturday.

Crittenden county is leading her neighbors in the raising of fine horses, mules, cattle, sheep, tobacco and wheat.

J. H. Brewer, State Manager for the Woodman of the World, the honored guest at the W. O. W. banquet spread at Opera House last Friday night.

Mrs. Julius Fohs, of Frankfort, after a visit of several days here to the parents, of her husband is now visiting her parents. Mr. and Mrs. Baldauff at Henderson.

BETTER THAN A CURE

It is well to cure a cold, but better to prevent it. As soon as you feel a cold coming on, take one or two "Lane's Pleasant Quinine Tablets." You will not have a cold and the Tablets will leave you feeling better than ever. They cure griping in a few hours. 25c a box at druggists and dealers.

Eugene Guess, a prominent young farmer of Tolu, was in Marion several days last week.

WHAT BACKACHE MEANS

Generally backache means that the kidneys are diseased. If they are, do not waste a moment, but begin at once a treatment with Kidnets, the greatest of kidney and backache remedies. Delay may mean a fatal ending, so do not delay. Druggists and dealers sell Kidnets at 50c. a box, and guarantee satisfactory results.

GOOD WAY TO USE

HYOMEI FOR CATARRH

Besides breathing through the inhaler a few times a day, many catarrh sufferers write that they find inhaling Hyomei (pronounce it High-o-me) from a bowl of steaming water each night before retiring a great aid in curing stubborn cases.

Fill a bowl half full of boiling water; pour into the water a teaspoonful of Hyomei, cover head and bowl with a towel, and breathe through nose and mouth the pleasant, medicated, antiseptic and healing vapor that rises.

This method relieves that stiffness at once, and makes your head feel fine.

You can get a bottle of Hyomei at druggists everywhere or at Haynes & Taylor's for only 50 cents. Ask for extra bottle Hyomei Inhalant.

But bear in mind that a Hyomei outfit which includes inhaler and bottle of Hyomei costs \$1.00.

Hyomei is guaranteed to cure catarrh, sore throat, coughs, colds, asthma and croup, or money back. Try it on that generous basis.

BELT-LOVE

Mr. Walter N. Love and Miss Gracie Belt, a very popular young couple from Siloam neighborhood, were married by Rev. R. C. Love in the Methodist parsonage at Tolu on the 21st.

The above is a picture of the Wellington piano to be given away October 29, to the lady securing the greatest number of votes in the Record-Press Prize Contest.

For fear the Company we first traded with would not give us such a piano as we wanted the winner to have, especially as they refused to ship it before the contest was over, that it might be inspected, we ordered this one through the Yates Bros. Agency here and it is now on exhibition at the Yandell-Gugenheim Co's store.

Remember the next count comes off next Saturday week for the ten dollars in gold to be given the one making the greatest gain since the count in July.
